

DISCLAIMER OF WARRANTY, LG FINDINGS GMBH

1. Contents of the Online Offer

The author is unable to guarantee for the applicability, correctness, completeness or quality of the information made available. Liability claims against the author, based on material or non-material damages caused by the use or non-use of the information made available or the use of incorrect or incomplete information, are invalid, unless deliberate or gross negligence can be proven on the side of the author. All offers are subject to change and not binding. The author reserves the explicit right to change, expand or supplement parts of these pages or the complete range on offer without prior notice, or to temporarily or permanently terminate publication.

2. References and Links

Liability claims against direct or indirect references to third party web pages (hyperlinks) outside of the author's area of responsibility, would come into effect only if the author knew about the contents and it was technically possible and reasonable for him to prevent the use in the case of illegal contents.

The author declares that at the time of setting the links no illegal contents were evident on the pages to be linked. The author has absolutely no influence on the current and future design, the contents or the authorship of the pages linked. The author therefore distances himself from all contents of linked pages which were changed after the links were set. This is valid for all links and references within the own internet offer, as well as any external entries in visitors' books, discussion forums and mailing lists set up by the author. Solely the provider of the page referred to is liable for illegal, incorrect or incomplete contents and particularly for damages resulting from the use or non-use of such proffered information. The person who only refers to the particular publication through links is not liable.

3. Copyright and Labelling Laws

The author strives to regard the copyright of all diagrams, sound recordings, video sequences and texts used; to use diagrams, sound recordings, video sequences and texts of his own, or to use licence free diagrams, sound recordings, video sequences and texts.

All brand names and trademarks referred to within the internet offer and possibly protected by a third party are entirely subject to the regulations of each valid labelling law and each registered owner's right of possession.

Even though a brand name is not identified as such, the conclusion should not be drawn that it is not protected through the rights of a third party!

The copyright for objects published by and from the author remains by the author of the pages. Duplication or use of such diagrams, sound recordings, video sequences and texts in other electronic or printed publications is not permitted without the express consent of the author.

4. Data Protection

If the internet offer allows the possibility to provide personal or business data (email address, name, address), the disclosure of this data by the user is entirely voluntary. Provided that it is technically and reasonably possible, usage and payment of the services provided is also permitted without providing such data, using anonymous data, or a pseudonym. Third persons are not permitted to use information provided in the imprint or similar contact details, such as the postal address, telephone or fax numbers, as well as the email address, to send unsolicited material. We reserve the right to take legal steps against senders of spam mails.

5. Legal Effects of Exclusion of Liability

This exclusion of liability is to be seen as part of the internet offer from which this page was referred to. In case parts or specific phrases of this text do not fulfil, no longer fulfil or do not completely fulfil the valid legal situation, the remaining parts of the document will remain unaffected in content and validity.
